Quick Installation Languages

English, German, French, Traditional Chinese + Technical support text in English, French, German, Dutch, Italian, Spanish, Portuguese, Polish, Russian, Czech, Hungarian, Serbian, Croatian, Traditional Chinese, Simplified Chinese, Korean, Japanese

Note: This USB-C to USB-C + USB-C cable supports **PD 3.0 fast charging up to 100W** when used with a compatible charger. When used with a non-Quick Charger, the output is 5V. Charging power depends on the connected devices and is limited by the device with the lower power capability. When two devices are connected, the 100W max. power is **shared between them, with up to 70W + up to 30W**. Priority is given to higher-power devices; two mobile phones share power dynamically. When one device is disconnected, the remaining device returns to its max. supported charging power. Do not exceed the max. total load of 100W.

Please note that data transfer is available only when **one device** is connected.
